

LIKHITH P S DAS

Full Stack Developer | MERN Stack Developer

Tumakuru, Karnataka | +91 7899808868 | likhithdaz16@gmail.com
linkedin.com/in/likhithpsdas | github.com/Likhithpsdas17

Professional Summary

Final-year Computer Science and Design student with hands-on experience developing and deploying full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Built projects including Data TwinX, ShoppyGlobe, and QuickBite, demonstrating expertise in authentication, REST API development, database design, and responsive web development. Skilled in building scalable applications across both frontend and backend technologies, with a strong interest in software engineering and problem-solving.

Technical Skills

Languages: JavaScript (ES6+), Java
Frontend: React.js, Redux Toolkit, React Router DOM, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST API Design, JWT Authentication
Database: MongoDB, Mongoose
Tools: Git, GitHub, Postman, VS Code, Vercel, Render
Concepts: CRUD Operations, Responsive Design, MVC Architecture, Data Structures & Algorithms

Experience

Internshala Trainings

2025 – Present

Full Stack Development Trainee

Virtual

- Completed project-based training covering React.js, Node.js, Express.js, MongoDB, Git, and GitHub.
- Built multiple full-stack applications with user authentication, REST APIs, and MongoDB integration.

Websort Technologies

Sep 2024 – Nov 2024

Web Development Intern

Bangalore

- Built and maintained responsive frontend pages for the KisanVerse agriculture platform using HTML, CSS, and JavaScript.
- Worked with the team to fix bugs, improve usability, and deliver features on schedule.

Projects

Data TwinX | *React.js, Node.js, Express.js, MongoDB, JWT* | [Live](#) [GitHub](#)

- Designed and built a full-stack Digital Data Lifecycle and Trust Management platform for securely uploading, sharing, and tracking digital documents.
- Added JWT-based login, secure share-link generation, access tracking, and lifecycle monitoring using Node.js and Express.js.
- Stored document metadata and user activity logs in MongoDB; deployed frontend on Vercel and backend on Render.

ShoppyGlobe | *React.js, Node.js, Express.js, MongoDB* | [Frontend](#) [Backend](#)

- Built a full-stack e-commerce application with product browsing, cart management, user authentication, and REST API integration.
- Used React.js and Redux Toolkit for frontend state management; built backend services with Node.js, Express.js, and MongoDB.

QuickBite | *React.js, Redux Toolkit, Tailwind CSS* | [Live](#) [GitHub](#)

- Developed a responsive food delivery platform with restaurant search, menu filtering, and cart management.
- Managed global state with Redux Toolkit; built a mobile-friendly UI with Tailwind CSS.

Education

University of Mysore School of Engineering

2022 – 2026
